

AXXIS

Designed By: Ofício

AXXIS is a task chair defined by movement and balance. Refined in form, intelligent in function, and intentionally designed for modern workspaces that value both performance and aesthetics.

With its soft organic lines and sculpted silhouette, AXXIS brings a sense of lightness and clarity to any environment, from focused work settings to contemporary collaborative spaces and design-led interiors.

The strength of AXXIS lies in its dynamic adaptability. Its intuitive adjustment points and ergonomic responsiveness support a wide range of users, while maintaining a cohesive and considered visual language.

The signature orange activation detail adds both functionality and identity, creating a subtle yet distinctive moment of interaction within the design.

Built for commercial environments but expressed with a softness and elegance rarely seen in task seating, AXXIS is more than a chair. It is a statement of how modern work should feel balanced, adaptable, and designed around people.
