

O CHAIR

Designed By: Oficio

O Chair is a meeting chair with presence. Refined in form, versatile in function, and intentionally designed for modern spaces that value both aesthetics and performance.

With its sculptural shell and clean lines, O chair brings a sense of ease and elegance to any environment, whether it's a formal meeting room, a collaborative hub, or a design-driven studio.

The strength of O chair lies in its adaptability. From soft neutrals to bold contrasts, O chair offers a platform for creative expression while maintaining a cohesive and considered visual language.

Its 4-star Swivel base adds everyday functionality, while the colour-matched mechanism and streamlined silhouette ensure a seamless, elevated look.

Built for commercial use but designed with a lightness and clarity rarely seen in task seating, O chair is more than just a chair. It is a design tool, built to elevate the experience of space.

Product Description

- A** Sophisticated fully upholstered shell
- B** Contoured, tapered shell with oval opening
- C** High arch Metal base
